# RAISE YOUR BAR AT MLS, MAHE B'LRU

Upskill yourself with new age programmes in Construction Law and Arbitration being offered by the **Manipal Law School (MLS)** at **Manipal Academy of Higher Education, Bengaluru**.

Taught by industry experts with many years of hands-on experience in managing construction projects throughout its life cycle including dispute resolution.

**Blended learning** mode, a combination of **live, in-person sessions (3 days)** at start and end of the semester. The rest are **virtual sessions**.

Examinations will be held at the MAHE B'LRU campus.

## From the Director's Desk

We, at MLS take pride in offering post graduate programs in niche areas. Last year we have introduced LLM programs in Data Privacy, Cyber Security and Information Technology Law. These offerings had received an outstanding support from the industry. MLS was the first Law school in India to offer programs in these areas. This year we are again pioneering in offering an exclusive Construction and Infrastructure related LLM programme (first time in India) and LLM in International Investment and Commercial Arbitration.

# LLM IN CONSTRUCTION LAW AND ARBITRATION

**Eligibility:** LLB with 50% marks and a minimum of 3 years relevant experience.

**Duration:** 1 year (2 Semesters)

**Mode of Delivery:** Combination of contact classes and virtual online and live sessions (Blended Learning)

**Assessment criteria:** Ongoing assessment and end term in-person examinations at the University

## PROGRAMME HIGHLIGHTS

First interdisciplinary law programme in India combining the skills of construction and legal concepts.

Leveraging the exponential growth in the infrastructure sector in India and globally.

Curriculum that offers in-depth practical knowledge in the construction /infrastructure sector.

Practical learning imparted by Practitioners/ Experts from Industry from India and abroad.

Value added Continuing Education Concept for Working Professionals.

Promotion of Industry Collaborations for practicing Law Graduates with SCL and others.

Passion oriented learning leading to better career prospects.

**Eligibility:** Any graduate (without law degree) with 50% marks and a minimum of 3 years relevant experience.

**Duration:** 1 year (2 Semesters)

**Mode of Delivery:** Combination of contact classes and virtual online and live sessions (Blended Learning)

**Assessment criteria:** Ongoing assessment and end term in-person examinations at the University

The LL.M. (Professional) Programme is a specialized educational offering designed to enhance the skills, knowledge, and leadership capabilities of professionals and executives in the construction field. It is designed to cater to **engineers, quantity surveyors, cost engineers and any other professional** who are already established their careers in their respective fields and seek the legal and contractual knowledge to handle construction contracts throughout its life cycle including dispute resolution.

The LLM (Professional) Programme is available only for non-legal professionals. It is an executive Diploma Programme being offered to construction industry professionals who have already established their careers in the industry, but want to enhance their knowledge in the field of construction law, contract management and dispute resolution (arbitration).

# INDIA'S FIRST

The Indian construction sector is growing exponentially. Infrastructure investments are poised to reach US\$ 1.3 trillion (INR 104.2 Trillion) in the next four years. National Highways, Airports, Railways and Ports are the key growth drivers.

**This rapid growth creates the need for trained Construction Law professionals, who have the requisite knowledge and expertise to focus on contract management and dispute resolution.**

Astute contract management, best procurement practices, risk identification and mitigation strategies, cost management and control, accurate scheduling and monitoring to avoid expensive delays, effective claims management and swift dispute resolution are the need of the hour! This presents the opportunity for legal experts, engineers, surveyors and lenders, to level up with specialized training in arbitration for infrastructure projects.

**However, until now there are no academic programmes in India offering specialization in Construction Law and Arbitration at the Masters level (LLM).**

**To bridge the skills gap, the Manipal Law School at Manipal Academy of Higher Education, Bengaluru campus (MAHE B'LRU) is pioneering India's first industry specific programmes in Construction Law and Arbitration, in association with an international consultancy C Cubed Consultants Ltd.**

Non-legal professionals will be taught law subjects related to construction, while the legal professionals will be taught engineering topics related to construction. Both the programmes are otherwise similar and require 40 credits for completion.

## OTHER PROGRAMMES
